INTRODUCTION

CHRISTIAN SIGNS AND SYMBOLS demonstrates the differences between the LATIN and GREEK Crosses by presenting examples derived from those two basic designs. The program also displays other popular symbols used by the Christian community, including the CHRISMON which is said to be older than the cross itself. You will also see the ICTHYS MONOGRAM, often used with a FISH SYMBOL to secretly identify Christians during times of persecution.

You may want to have some drawing material handy, before running the program, so that you can practice drawing the symbols you like.

If you do not have a Bible to refer to in the last quiz, just type in the NINTH letter of the alphabet.

The Hymn tune at the end of the program is the OLD HUNDREDTH, composed by Louis Bourgeois in 1551.
